An all-in-one technology exclusive to SMART Boards

The SMART Board's built-in iQ technology puts everything you need in one place, available at the touch of a finger. There's no need for wires and cables. The embedded computer offers one-touch access to SMART Learning Suite applications like SMART Notebook® lessons, SMART lab™ activities and SMART amp™ workspaces. There's also access to collaboration tools, like a digital whiteboard, built-in web browser and wireless screen sharing (iOS, Android and Microsoft devices).

Exclusive 7000 features

- **Exclusive HyPr Touch™ technology** lets you write and touch with unparalleled precision and responsiveness, while automatically detecting the different pen tray tools.
- **Pen ID™** enables writing in different colors with 4 pens, simultaneously
- **16 simultaneous touch**, writing and eraser points on Windows® and Mac®
- Access SMART software, content and applications from the **on-screen menu**
- **Preview and switch** HDMI 1 and 2, DisplayPort and VGA sources from the screen
- **Dual proximity sensors** automatically turn on the SMART Board when you walk in the room
- **Easily accessible Convenience Panel** for power, volume, USB and HDMI inputs

Other key features

- **4K Ultra HD** video resolution with HDMI 2.0
- **Object awareness™** technology recognizes when you're using a finger (touch/drag), pen (write) or fist (erase)
- **SMART ink™** makes notes easy to read, and allows writing to be converted to text and inserted into applications like Microsoft Office®
- **SilkTouch™** ensures a smooth, comfortable touch experience
- **Integration with tablets and phones**, including Chromebooks using SMART software
-  **ENERGY STAR®** certification saves on energy costs
