

Allsee MEETING PAD

The Ultimate Collaboration Tool

Multi-Device Wireless Mirroring

Wirelessly project the displays of upto 4 smartphones, tablets, laptops, PCs or Macs. With mobile devices, you can mirror the display in both directions, allowing you to control the board from your device.

Smart Pen Stylus

There are two stylish interactive 'Smart Pens' included. These special styluses allows you to control the display wirelessly from anywhere in the room. You can change the pen tool colour, save annotated documents, navigate through a PowerPoint presentation or website and go back to the 'MeetingPad' home screen.

Flexible Working Tools

Personalise your experience by changing the background colour of the display, as well as the colour and thickness of your drawing tools.

Advanced Whiteboard Widgets

The screens feature advanced widgets for the whiteboard including a calendar, timer and a calculator. For drawing more technical diagrams there are rulers and compasses available. There are tools for temporarily hiding information from viewers with our spotlight and curtain widgets.

Easy File Sharing

Share documents, videos, images and audio files stored on your smartphone, tablet, laptop or PC directly to the touch screen. You can also share files from the touch screen to your device via email or by scanning a QR code with your mobile or tablet.

Screen Sizes

55" | 65" | 75" | 86"

20 Touch Points

Ideal for large group collaboration, up to twenty users can interact with the screen simultaneously when working on group projects. The touch functionality also works for a connected PC and laptop, using HDMI or USB.

Easy Access Ports and Controls

A section of buttons including power and standby buttons and two front facing USB ports allow you to connect a USB device for quick access to files from the plugged in device, increasing usability. There are also two integrated speakers for your audio elements.

Optional OPS Windows PC

For seamless integration onto existing networks, an OPS PC can be installed into the rear of the display, allowing for ultimate flexibility to switch between Android and Windows effortlessly.

Etched Glass

Improves tactility for smoother touch gestures, especially useful for multiple users. The anti-glare nano coating also diffuses external light improving optical clarity.

Slim Bezel

The screens feature an extremely sleek and narrow bezel meaning that the enclosure to display area ratio is very low. The front is crafted from segmented aluminium to achieve ultimate precision while the polymer rear keeps the display super slim and lightweight.

Android Operating System

Utilising Android giving you familiarity of a reliable operating system, and the piece of mind in the security of your device.

AllSee MeetingPad

“The MeetingPad is a clutter free, easy to use board that looks good in the classroom, and versatile for the different and changing needs of a classroom lesson”
