Simplicity

The intuitive interface and user-friendly design gives you a personalised environment with your Promethean account, and enhance your teaching with the Classroom Essential apps, plus upto 20 points of continuous touch.

Connectivity

ActivPanel 9 makes it easy to connect to, using either USB-C for audio, visual touch connectivity and charging, and connect upto 39 student devices with agnostic ScreenShare.

Longevity

ActivPanel 9 is designed with longevity at its core. Using Promethean Panel Management or Radix, apply Over-the-Air updates, latest security features and new features keeps the panel upto date. Panel Management helps with energy efficiencies, reducing your carbon footprint. And, with a durable toughened glass combined with best-in-field writing and viewing experiences, and a comprehensive warranty offering, ActivPanel 9 are designed for the long term.

Adaptability

Designed for optimal education experiences, record using built in microphone array, share recordings easily via cloud classrooms, and use ScreenShare for real time collaboration in classroom and remote environments.

Security

With enhanced security and sign-in options, personal data is kept safe in your Promethean profile, not on the panel. Sign in is available with Google or Microsoft, or via QR code, so no password is required on the panel.

ActivPanel 9

“The 4k screen on the ActivPanel 9 Premium gives really powerful colours, helping resources to stand out more on the screen, accompanied with intuitive controls.”
