

# ViewBoard 50 Series

Today's lessons made easy

ViewSonic®

## Customise your Teaching

Utilise the latest touch board at your finger tips, and expand further with a range of accessories to compliment your ViewBoard.

## Easy on the Eyes

The ViewBoard® 50-5 Series employs the latest technology to safeguard the eyes of both children and adults, while not compromising on the high-quality visual experience. Flicker-Free Technology, TÜV-certified low blue light, and anti-glare coating work together to provide safe and comfortable use, all day long.

## Plug-and-Play Connectivity

Eliminate untimely starts and complicated cable layouts with the USB-C one-cable solution. Facilitating both power and data transfer through a single lightweight cable, allowing you to simply connect their laptop, tablet, or smartphone for instant presentation functionality for effortless and punctual starts every time.

## Special Features

Newly designed for better lesson delivery, with:

- Immersive Multimedia Sound Bar boasting 2 x 15W speakers and 1 x 16W subwoofer
- Responsive 8-Mic Array

## Screen Sizes

55" | 65" | 75" | 86"

## Fine Touch

The 4K Ultra HD comes with Ultra Fine Touch and palm awareness technology, giving a natural writing experience with dual pen. 40-point touch capability supports in-class or online student collaboration.

## Adaptability

Using the microphone array, you can connect with students using devices remotely to improve student engagement, and allow them to interact with the board.

# ViewBoard 50 Series

## Connectivity

Using USB-C, video and power with no preparation or technical know-how required, Teachers simply plug-and-play for immediate presentation, whiteboarding, and collaborative functionality using the familiar software of their own device.

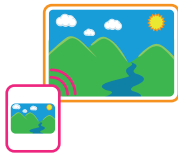

## Efficiency and Security

Android 11 OS powered by an octa-core CPU for optimised efficiency and security. The fully native and embedded OS ensures a seamless, up-to-date, and elevated user experience.

## ViewBoard Cast

With no cable required, you can wirelessly connect with your board, using all the board's presentation and collaboration tools. Also connect with a devices internet browser

## Simplified Management

IT Managers can use in-browser based myViewBoard Manager to update, schedule and manage multiple displays remotely, and using Android 11, is fully software compatible with all common devices for connectivity.

*“The ViewBoard software is easy and simple to use, allowing staff and students to easily use the board straight off in lessons.”*
